

## Canadian Stars Will Try For World Hockey Championships

Canadian ice hockey team, the Sudbury Wolves, who will represent Canada at the world championships at Stockholm in February, have arrived in London. The customs at Southampton seized hockey kit and equipment, including 500 hockey sticks, because an import license was considered necessary. They may be released if necessary guarantees are forthcoming. Above, the Sudbury Wolves are seen at Earl's Court (London) ice rink.

## Canadian Garden Service

CANADIAN GARDEN SERVICE  
by Gordon Lindsay Smith  
A pencil will help

A pencil will prove a most useful tool in the gardeners' kit, and it should be the first one put to use each season. True, it is not much use out in the garden itself, but with a few pieces of paper and perhaps a small ruler it will come in mighty handy for planning.

And planning is an important and pleasant part of gardening.

It is not necessary to have an exact blue print, or even a plan drawn to scale, though a rough sketch in the proper proportion, with the prominent features like the house, garage, walks, trees, etc., marked in about the right places, will make things neater and easier.

The main thing about planning, however, is to help get the garden started at the proper time and to prevent duplication and crowding.

**Laying out the Garden**  
For the vegetables planning is simple mathematics. It is just a case of determining how much space is available and then laying this out

in rows of various widths. For vegetables of medium size like beans, lettuce, carrots and such things it is best to leave at least a foot between rows and up to twice this much will not hurt. More space between make cultivation easier. Larger growing things like potatoes, peas, corn, etc., should have at least two feet between rows, and a yard will not be too much, especially where a garden tractor is to be used for cultivation. Three feet apart is about the right distance for tomatoes too, although they can go closer if they are staked. With sprawling vines like cucumbers, melons and small squashes the best plan is to plant in hills of a foot or 18 inches square and at least two feet between.

## Planning Flower Gardens

For the flower garden, lawns and shrubbery about the house, the experts usually advise an informal layout, by that however they don't mean just planting anywhere or, as one wit suggested, mixing a dozen packets of seeds together and sowing broadcast.

It may sound a bit Irish but what

these experienced gardeners have in mind is a carefully planned layout to produce the informal effect, and it is not difficult to accomplish. A few simple rules will help.

First, and of great importance, is the lawn. No matter how small the amount of ground to be landscaped it is advisable to have a piece of lawn in the centre and foreground. Around this the flowers and shrubbery are grouped with the house in the background. There is nothing like a well kept lawn to show off the rest.

One should keep in mind the mature height of the plants, shrubbery and trees to be used. Allow half as much space between as these individuals will finally grow. With an aster that means a few inches apart, with a sunflower or hollyhock 2 or 3 feet, medium tall shrubs such as ordinary spires, pretty close to 4 feet and with a maple tree the space between would be at least 30 feet.

## UNION ORGANIZER ARRESTED IN PARIS STRIKE

Union Organizer William Stewart, 29, organizer for the United Textile Workers, local 153, is led away by police who said he was taken in "chase" after melee broke out at the Fenman textile plant strike Paris Ont. Police said he would be charged with assault. Two were also arrested.

They Don't Know  
Canada

A sister of Mrs. Eva Terry in Arizona writes, "We have had all of three inches of snow this winter, the mercury dropped to nine below one night. It was terrible. The morgue at Flagstaff is full of bodies, 32 in all, waiting to be buried. What do you folks do in Canada with your dead when it is so cold?" This was written in all sincerity. Guess they just don't know our Canada.

## THE OLD HOME TOWN

There's a Future  
in FLAX

Linseed meal, linseed oil, paint, linoleum, cigarette papers, tires, shortening, are just a few of the hundreds of products in everyday use in which Flax plays an important part . . . wherever these products are made Flax is used in making them. Yes, there IS a future in Flax - for YOU!

To increase your YIELD PER ACRE and make Flax a profitable crop EVERY year, here's the book for YOU! Sixteen pages of the latest and most up-to-date facts compiled from a constant scientific study of Flax-growing . . . including the latest on weed and grasshopper control . . .

SYMBOLS  
OF  
SAFETY

You'd come to a sudden curve without warning if the familiar highway checkerboard weren't there. This symbol of safety makes highway travel smooth, safer, faster. Just as the Treasury Branches make business operations easier throughout the province by providing a complete, modern service.

IT'S A GOOD IDEA  
TO HAVE SERVICE!

A Current Account at your Treasury Branch is a revelation in courtesy, speed, and service. Do all your business at the Symbol of Safety.
